FROM PLAYING ROULETTE
ON ANY ONLINE CASINO

Many online casino and poker web sites offer 1st Deposit bonuses. This is given as an incentive for you to make a deposit and then spend money on their web site.

There is one flaw with most of these as you are required to bet a certain amount to receive this extra money.

The next few lines will explain how to use this to your advantage and cash out your bonus without risking any of your own money by playing online roulette on

Rushmore CASINO - Our Number One Choice!

We've tested Rushmore Casino (and on the other 4 site mentioned below) - casinos that accepts U.S. Players (except PartyPoker/casino), and found the system to work flawless on it.

By clicking on [THIS LINK](#), you will get a \$888 (up to) bonus when you make your first deposit. Therefore if you should receive a \$888 bonus which is immediately credited to your account for your gambling pleasure.

This bonus can only be withdrawn as cash into your bank account once you have staked 10x your bonus which in the case of a \$200 bonus (for example if you choose to deposit only \$200) , would be \$2000.

This seems like a lot of money...I know...Keep Reading :

This casino also doesn't count bets on red or black towards the 10x stake so therefore I had to think of an alternative way to cash out this bonus without risking your own money. They do however count bets on all the umbers (0-36) in the 10x stake.

Therefore, by betting \$3 on each number you are betting $37 \times \$3 = \111 each time and losing \$3 as each time you are winning $36 \times \$3$ back.

Once we've done it 19 times we will have staked \$2000 and only lost $19 \times \$3 = \57 of our deposit.

Thus leaving us with \$831 of our bonus intact! (there is a button called repeat bet which you can keep pressing, therefore you don't have to do each bet from 1 to 36 and 0 individually time and time again!).

So by playing 19 spins in the way I have described above, you will walk away with easy profit for less than 45 minutes work!

If you haven't done so already [CLICK HERE](#) to download Rushmore Casino software and install it.

Please note: The more sites you'll visit the more money you'll make. Be sure to visit all the casinos on our casino reviews page to make as much money as possible - each casino will give you a First Deposit Bonus!

Next Page will give you the review about the casinos that we have tried the system and found it to work with no problems.

Good LUCK

CHERRY RED CASINO -I really felt that Cherry Red casino really tries to goes all out to give you an exceptional

look and feel, if the buxom beauty on the home page or the big & endless variety of the online casino games. But behind the glitz is a very smooth and solid operation. Each of us had our share of payout “issues” with other online casinos, And i can proudly say that Cherry Red casino paid fast and paid right the first time. Cherry Red casino has the TST certification that you should always look for at a online casino.
